improves **outcomes** and patient **safety!**

### Neonatal PICC Line Workshop

This workshop is designed for the **Neonatal Registered Nurse** who is seeking Certification, CE Contact Hours or skill level enhancement.

The successful delivery of a PICC Line depends greatly upon the nurse's understanding of *when* and *how* to use, and care for that catheter. The PICC Line nurse needs to be able to problem solve catheter related complications. This workshop is designed to meet the education and skill needed when providing therapy for the neonatal patient with a PICC Line.

- Indications & Contraindications
- Advantages & Disadvantages
- Sterile Procedure, Proper PICC Line Insertion
- Proper Placement, Management of the PICC Line
- Removal of the Catheter
- and **More** .

**AACN** American Association of Critical-Care Nursing  
 Continuing Education Unit Certificate

**Instructors are Certified PICC Neonatal Nurses**
