UL-400	Procedure Kit w/Fold-out-Procedure Design	5/Box
KP-PICC	Procedure Kit w/Fold-out-Procedure Design	5/Box
DCT-100	Dressing Change Tray	20/Box

---

*The GuardianPICC™ kits are assembled in sequence of use, allowing the clinician to progress efficiently through procedures. These kits also allow for streamlining components, reducing waste, and offering cost effective supply solutions. Kits are a valuable tool in standardizing protocols for quality patient care: when the items necessary for a procedure are supplied in a single kit, facility protocols and continuum of care are easier to be established and maintained.*

---

---

*The **GuardianPICC™** Procedure Kits are designed with the HELP of neonatal professionals; they're made for the neonatal patient and their needs. Kits are a valuable tool in standardizing protocols for a procedure and assist in the continuum of care that has been established, and that is to be maintained in your NICU!*

*Design your own GuardianPICC™ Kit to meet the needs of your professionals!*
